

Fire Horse Solutions

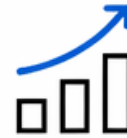

*Harness the Power
of your Data*

DATA. INSIGHT. IMPACT.

Fire Horse Solutions is a full-scale management consulting firm specializing in the development and deployment of analytic solutions that help prevent fraud, waste, and abuse, drive efficiency gains and performance, and guide our clients up the analytic spectrum.

**Prevent
Risk**

**Drive
Performance**

**Deliver
Outcomes**

PROBLEM

Public sector organizations face complex challenges that limit their ability to turn data into meaningful outcomes.

- Fraud, waste and abuse impact program integrity and trust
- Siloed data and disconnected systems limit visibility
- Inefficient processes drive up costs and reduce performance
- Limited analytics maturity restricts the ability to predict and prevent

SOLUTION

We design and deploy advanced analytic solutions that transform data into actionable intelligence.

- **Integrate:** Connect systems and data to create a single source of truth
- **Analyze:** Apply advanced analytics to uncover risk, opportunity, and performance drivers
- **Automate:** Streamline processes and embed insights for real-time action
- **Evolve:** Guide clients up the analytic spectrum for continuous improvement

IMPACT

Our solutions deliver measurable results that strengthen programs and improve outcomes for citizens.

- **Prevent:** Reduce fraud, waste, and abuse before it happens
- **Perform:** Improve efficiency, productivity, and cost savings
- **Predict:** Leverage data to anticipate risk and prioritize resources
- **Empower:** Equip organizations with insights to make confident decisions
- **Deliver:** Exceed expectations and create lasting value for agencies and communities

OUR SOLUTIONS

Fraud, Waste and Abuse Detection

Detect, prevent, and deter improper payments and fraudulent activity.

Operational Efficiency

Optimize processes and systems to reduce costs and drive efficiency.

Performance Improvement

Measure, monitor, and improve outcomes across programs and operations

Analytic Maturity

Proven frameworks and roadmaps to advance analytic capabilities

Data Integration & AI Enablement

Surface and integrate enterprise data to unlock the full potential of AI projects

Non-Compliance Identification

ROI-driven audit selection solutions across all tax types

FOCUSED
on Outcomes
